Return on Investment

Report Card - Return on Investment

a summary of learning performance by survey question category and by survey question

This training was a worthwhile investment for my employer.

This training was a worthwhile investment in my career development.

Report Card - Support Tools

a summary of learning performance by survey question category and by survey question

Support Tools

After the event, my manager and I determined how I will use the learning on the job.

I was provided adequate resources (time, money, equipment) to successfully apply this training on my job.

My manager and I set expectations for this learning prior to attending the event.

The participant materials (manual, presentation handouts, job aids, etc.) have been useful on the job.

Report Card - Technical Support

a summary of learning performance by survey question category and by survey question

question

Technical Support

Communication - Professional and considerate

Effectiveness - Knowledgeable, Provided appropriate solution

Responsiveness - Answered call in a timely manner

Report Card - Technology

a summary of learning performance by survey question category and by survey question

Technology

Accessibility to the Classroom environment - Consistent connectivity and uptime

Interface friendly, easy to use/navigate

Report Recommendations

Interpreting the Report

Below are tips to help you understand the information in the report. For additional information, please click the Help tab above the report.

Shows the overall scores by question category and questions selected for training provided by the organization.

Report allows you to compare the organization's performance against internal or external benchmarks (represented by an orange bar).

Report may be customized using filters for comparison of specific attributes such as courseware, question category, etc.

Recommended Actions

Below are recommended next steps to take after reviewing the information in this report. Additionally, you'll find links to automatically run complementary reports for drilling-down further into the data or analyzing the information in another way.

Determine which question categories fall below the benchmark and drill down by utilizing the breakout by question or by using the reports below to determine what may be causing the score to determine what corrective action to take. For example, if job impact is low for specific courses, perhaps the right people aren't attending the training or the material delivered is not intended to impact performance.

Filtering the report to one instructor or one set of courses will allow the report to be used in performance reviews. Because the questions are also displayed, the potential areas where instructors or courses perform high or low can be identified and a development plan for an instructor or redesign plan for a course can be developed.

Schedule the report to be emailed on a quarterly basis to the instructor and course managers to communicate results on a regular basis.

Recommended Links

Run the Performance to Goals report to view how these results compared to your goals.

Run the Learning Levels Score Card to view your performance against your goals and benchmark for each of the 5 learning levels.

Run the Class Level Detail report to view information and ratings for all the classes that collected data.

Run the Learner Comments report to review all the qualitative feedback for specific approaches to make the learning more effective and impactful.
