

The Application Developer Program includes the following:

## 1. Choice of Training Environments

You choose how you want to learn. You get your choice of Classroom Learning, Remote Learning, or Mentored Learning classes. New Horizons is the only IT Training Center that offers you the choice of so many different styles of learning. If traditional training in a classroom environment is not an option for you, you may choose to train on your own schedule in our Mentored Learning classes or take advantage of Remote Learning from home if you wish.

## 2. The Best Technology Instructors

Regardless of the training method you choose, you can be confident that New Horizons' instructors are the most qualified in the IT Training Industry. Our training staff blends effective communication skills with real-world experience to provide the highest quality training for our clients. All New Horizons instructors are required to be Microsoft Certified Trainers and must also possess related Industry Certifications for any classes they teach. Please refer to the last page of the New Horizons Consumer Course catalog for a complete listing of all of our instructors and their specific qualifications.

## 3. Free Lifetime Learning Commitment

At New Horizons, training does not end when your program is over. You are welcome to repeat the class as often as you like *for life* for free for the life of the course.

## 4. Books, Manuals, and Study Guides

At New Horizons, the cost of your courseware is included in the tuition. New Horizons uses only the best courseware in our MS Certification Classes- Microsoft Official Curriculum (MOC). These books are expensive- as much as \$300 a piece.

## 5. Four Microsoft Certification Exams

Exam vouchers for the following industry standard certifications are included with the tuition:

- Microsoft Certified Professional (MCP)
- Microsoft Certified Technology Specialist (MCTS) for Application Development Foundation

- Microsoft Certified Technology Specialist (MCTS) for Windows Forms Application Development
- Microsoft Certified Technology Specialist (MCTS) for ASP.NET Application Development
- Microsoft Certified Technology Specialist (MCTS) for Windows Communications Foundation

## **6. Practice Tests and Study Guides**

Prior to taking the actual certification exams, New Horizons provides practice exams that streamline your study process by identifying your weak areas and pointing you where to study in your books and study guides.

## **7. Test Pass Guarantee!**

At New Horizons we are so confident in our training that if you fail a certification exam, we will pay for you to re-take the exam up to three times for free. Please see the enclosed flyer that explains the Test Pass Guarantee process for a full explanation of this benefit.

## **8. Job Placement Assistance**

At New Horizons, helping you land a job is our top priority. That is why we have experienced staff on hand with offices inside our training facility. At conclusion of the program, you will be provided with the following Career Services:

- Career Assessment and Planning
- Resume and Cover Letter Construction
- Resume Distribution
- Interview Coaching
- Career Building Workshops
- Access to Job Postings in our Career Resources Center
- Setting up of interviews with local private firms and/or government agencies

## **9. New Horizons Exclusive *Interview Guarantee!***

New Horizons is so confident in that you will acquire a job at the conclusion of the Application Developer Program that we guarantee to set you at least 3 interviews with potential employers.

## **10. Free Office Skills Training**

In addition to your technical training and certification, New Horizons offers over 80 free Office Skills training courses for all of our Career Track students. See the attached flyer for a complete listing of courses that cover the following topics:

- Business Skills (Business Writing, Negotiation, Time Management, etc...)
- Web Design and Internet Training (Dreamweaver, PhotoShop, etc...)
- Microsoft Office (Word, Excel, PowerPoint, Outlook, etc...)
- Personal Productivity (Quickbooks, Vista, XP, ACT, etc...)
